FORMULATIONS

- 11-40-11+(2MgO)+TE
- 17-7-21+(3MgO)+(20 SO₃)
- 13-40-13
- 5-5-45+(24SO₃)
- 15-5-30+(2MgO)+(15 SO₃)
- 20-20-20
- 15-30-15+(2MgO)+(5.4 SO₃)
- 16-8-24+(2MgO)+(17 SO₃)
- 18-18-18+(3MgO)+(7 SO₃3)+TE

NUTRIFLOW NPK, It can be used in drip irrigation, foliar application and fertilization of open field crops.

Usage Recommendations:

In general, the recommended dosage is 200-250 gr / 100 lt water for foliar applications; and 1.5-3 kg/da/day for 3-4 applications at each plant stage in drip irrigation applications.

FORMULATIONS

- 11-40-11+(2MgO)+TE
- 16-8-24
- 10-0-40
- 18-18-18
- 15-30-15

OPTIGROW NPK, It can be used in drip irrigation, foliar application and fertilization of open field crops.

Usage Recommendations:

In general, the recommended dosage is 200-250 gr / 100 lt water for foliar applications; and 1.5-3 kg/da/day for 3-4 applications at each plant stage in drip irrigation applications.

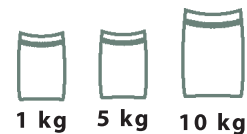

FORMULATIONS

- 27-9-18+TE
- ACTILEAF 10-52-5
- ACTILEAF 5-5-45
- ACTILEAF 20-20-20

Usage Recommendations:

Generally, the recommended dosage is 100-200 gr / 100 lt water in foliar applications; and 1-2,5 kg/decare/day in every period of the plant, 3-4 times application is recommended in drip irrigation applications

FORMULATIONS

- 18-18-18
- 16-8-24
- 15-30-15
- 12-0-43
- 20-20-20
- 5-5-40
- 20-10-20

MATAPLANT NPK, It can be used in drip irrigation, foliar application and fertilization of open field crops.

Usage Recommendations:

In general, the recommended dosage is 200-250 gr / 100 lt water for foliar applications; and 2.5-5 kg/da/day for drip irrigation applications, 3-4 times application is recommended for each period of the plant.
